WEB DEVELOPMENT & HOSTING SOLUTIONS

325+
Organisations

29
Cities

10
Years

A **software** and a **website** form a good pair of tools that hugely benefit your progressive organisation and help it leap into an age of IT smart institutions.

Admen is also into **software development**. We have been providing consistent web and **MIS** solutions to several institutions/organizations since 2003.

Admen Multi-Studios has been providing consistent web and software solutions to several institutions/organizations since 1996.

Admen offers a set of **Dynamic web based utilities** which can be seamlessly integrated to your **showcase website** to form an extremely useful web based tool which makes your presence on the web meaningful for your users and useful for you.

The pricing of the **website** is also modular in accordance with the modules selected by you thus eliminating the excess load of any wasteful cost included in your package.

We propose to develop, host and maintain the website of your esteemed organisation and are submitting a list of features that we would like your website to have.

We hope, after going through the proposal, you'd appreciate the concept and vision that we have employed to the service of our. Looking forward to a lasting association with you.

Sincerely

Prateek Asthana
Business Co-ordinator

WEB DEVELOPMENT & HOSTING SOLUTIONS

1. Website Design Requirements

Animated Flash Intro

A small animated intro created in flash as the starting page of the website

Selected	Not Selected
<input type="checkbox"/>	<input type="checkbox"/>

Web Pages (Static Display pages & Dynamic Data driven pages)

Some smaller packages of websites have provision for limited number of webpages. In bigger packages, we do not pose any restrictions on the number of webpages. More concentration is paid to present the information in a concise and easily navigable layout, this tends to reduce the count of webpages. If the requirement persists more pages are created along the year.

Limited	Flexible
<input type="checkbox"/>	<input type="checkbox"/>

2. Website Hosting Requirements

Domain Name

You get independent name, no shared address. As required or available with regular .com/.net/.org extensions. Other extensions like .ac.in are costlier and are charged accordingly

Web Space & Database

We have our own dedicated servers for hosting we have the flexibility to allow our users to take the privilege of an expanded web space. For the users of bigger web packages, if their webspace requirement increases for a short period of time, they do not have to buy the next slab of hosting. The users are allowed to use more space without paying an extra price.

Database is maintained on NT Platform on MS Access or MS SQL servers.

Limited	Flexible
<input type="checkbox"/>	<input type="checkbox"/>

Mail boxes (Two options integrated mailbox and split mailbox)

Alongwith website, we provide POP mailboxes each having 50 MB mail buffer. This space is additional to the regular webspace of your website. It is suggested not to split the mail box into peices. But if the client wants they can create multiple mail aliases for different people

Integrated	Split
<input type="checkbox"/>	<input type="checkbox"/>

Web Server (Dedicated server, no shared or third party hosting)

For regular webites we use NT Platform rather than linux servers to facilitate the clients to interact themselves with their websites without much technical knowledge. Servers are Class A with an average uptime: 98.98% (Class A: min 98%; Class B: min 95%; Class C: below 95%)

3. Dynamic Utilities

Online Control Panel

This is the best feature that gives complete independence to the client. Using this Control Panel the Site Manager of the organisation can update his own website without any technical knowledge of FTP or web design. They can also send and keep a record of update requests sent to our office and when they were resolved. All student/faculty/alumni/user/visitor/partner/client registrations can be viewed and managed from this panel. News flash/Notice Board/Opinion Poll and Results can be managed using this Control Panel.

Selected	Not Selected
<input type="checkbox"/>	<input type="checkbox"/>

Online Short News Scroll / Online Notice Board

Any urgent News or Notice can be put on the site by the client himself using the Control Panel.

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

Online Test Results Display (compatible with OMR Module) [**Educational Institutes**]

Upload your results and students or parents can view using their username and password. The results can be prepared manually or automatically using our software. Shows result in a flexible format.

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

Online Member Registration (for Student/Alumni/Teacher/User/Visitor/Client registration)

An online database is created which can be viewed by the registered members or by the site manager. Registered members can view contact addresses of other members and contact them. The site manager can monitor useful and fake registrations and can get in touch with the members registered for the organisation.

<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------

WEB DEVELOPMENT & HOSTING SOLUTIONS

- | | Selected | Not Selected |
|---|--------------------------|--------------------------|
| <ul style="list-style-type: none"> Online Student Registration & Hall Ticket issue [Educational Institutes]
 This feature completely supports the process of online admission, by accepting online applications and confirmation of receipt of DD by post and simultaneous online issue of acceptance slip or Entrance Exam Hall Ticket. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Objective Test (Mock Test) [Educational Institutes]
 This module offers a set of objective questions to the users registered with the website. The results can either be displayed instantaneously or can be used to form organised ranking to be declared later. The feature is of high utility for coaching classes. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Assignment Manager [Educational Institutes]
 Teacher can upload online assignments/homework. The work after completion can be submitted by the student online for evaluation and marking. This is the most sophisticated step towards bagless institutions. More over summer project progress can be monitored using this module. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Job Application (Staff Recruitment)
 Extremely useful in collecting online applications for the post of Faculty/staff. This utility helps in achieving better response to news paper ads for recruitment. If your institute has a constant demand for employees/faculty members, this feature should be publicized and can be used all the year round to collect online applications. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Placement / Business Activity Section
 Placement activity requires lot of dynamic changing of the information about Recruitment Notices, Companies, Resumes etc. This all can be managed by completely dynamic web pages which can be edited online by your staff. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Conference Management & Registration
 This module supports the complete process of Data and Personnel management involved when the institute hosts an event like a conference. Complete registration, selection of presentation, Hotel booking, abstract submission and Registration card issue are managed online by this module. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Periodic Newsletter to Registered Users
 This module facilitates the site manager to send a newsletter or any other file to the different categories of its registered users at one click. Very useful for forming activity groups and other institutional activity. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Opinion Poll
 This feature helps you create an opinion poll section on your website to get response of your visitors on a particular issue. The questions and options can be changed by the client using control panel. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Restricted login area for clients to access complete product & price details
 Besides the showcase window for the visitors, the business organisation might want to have an area on the website which can be accessed only by the allowed users/partners and contains information about prices & offers etc. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Feedback form/Guest Book - Inbuilt Mail Engine
 We see mostly when we click on the mail given on any website, it prompts to open the outlook Express. Now if the visitor does not have the outlook Express configured, or is sitting on some other machine, then he is not able to send a mail. All the websites developed by Admen have inbuilt feedback & response forms which are an integral part of the website and thus the visitor who wants to get in touch with the institute does not require any special configuration to send the mail. Moreover as the response mailbox is located on the same server, we get instant mails with no chances of losing or bouncing. | <input type="checkbox"/> | <input type="checkbox"/> |
| <ul style="list-style-type: none"> Online Mass Mailer utility
 Helpful in sending Instant Messages to the registered users like Alumni/Student/visitors/clients etc. | | |
| <ul style="list-style-type: none"> Hit Counter
 Counts the number of visitors on a website. A default component of all websites. | | |

TERMS OF ASSOCIATION FOR WEBSITES

	Read Properly	Not Read
1. Content write-ups, Data & Photographs of the organization should be provided by the client. Any documented data must be provided to us in soft copy.	<input type="checkbox"/>	<input type="checkbox"/>
2. During development and updation, the data must be reached to the Admen office. We are not bound to provide any on site collection service.	<input type="checkbox"/>	<input type="checkbox"/>
3. The client is expected to pay 50% of the order amount as advance along with order. The remaining 50% of the amount shall be payable, after completion of the designing at the time of Hosting.	<input type="checkbox"/>	<input type="checkbox"/>
4. The domain will be registered and site will be uploaded only after the receipt of full payment.	<input type="checkbox"/>	<input type="checkbox"/>
5. Client is expected to provide sufficient data within a maximum period of one week from the order date. Time duration of 10 days must be allowed to complete the site from the date of supply of last piece of data from the client's office.	<input type="checkbox"/>	<input type="checkbox"/>
6. We shall first present a design layout containing the primary data given by the client within a week from the date of receipt of order/data. This layout must be checked by the client. And suggestions if any, must come up within a maximum period of one week from the date of submission of layout.	<input type="checkbox"/>	<input type="checkbox"/>
7. In case the client fails to provide the entire data/corrections within a maximum period of one week from the date of submission of layout, the balance payments shall not be delayed beyond 10 days.	<input type="checkbox"/>	<input type="checkbox"/>
8. The payment of bill must be kept unaffected with any variations in time schedule due to an addition of requirement or delay caused due to any other reason on the part of the client.	<input type="checkbox"/>	<input type="checkbox"/>
9. Service and support shall commence only after all dues are clear.	<input type="checkbox"/>	<input type="checkbox"/>
10. In case of Govt. Institutions, the credit period can be extended to a maximum of 30 days after hosting, failing which the site will automatically be barred from the server.	<input type="checkbox"/>	<input type="checkbox"/>
11. The charges mentioned in the proposal are annual subscription charges only. Renewal if desired must be paid for, one month prior to expiry to avoid any discontinuity in the operation of the site.	<input type="checkbox"/>	<input type="checkbox"/>
12. The package includes cost of domain registration only for .com/.net/.org domains. Applicable differences should be paid by the client for registration of any other extension	<input type="checkbox"/>	<input type="checkbox"/>
13. In case of online services, we are liable only to provide technical support for information transfer through internet. Rest of the work like data preparation, liasoning & franchisee establishment and financial transactions shall be dealt on the part of the client only.	<input type="checkbox"/>	<input type="checkbox"/>
14. Flash animation and multimedia / animation stuff hampers the speed and reach of the website. These would be added only if desired by the client.	<input type="checkbox"/>	<input type="checkbox"/>
15. During development, the site will be temporarily hosted to check for links and function. Once the site is complete from our side with regards its technical planning & design, hard copies of the same shall be given for thorough checking. The final content of the site shall depend on the signed proofs given back to us. Final hosting of the site will be formally notified.	<input type="checkbox"/>	<input type="checkbox"/>
16. After final hosting of the website, responsibility for timely updation and validation of the content lies solely with the client. We shall provide only the technical support for the task.	<input type="checkbox"/>	<input type="checkbox"/>
17. There might be occasional incidents of breakage of link between webpage & database which might hamper website performance. These would be corrected, if notified.	<input type="checkbox"/>	<input type="checkbox"/>
18. Any complaint or suggestion regarding the functioning/amendment/updation must be mailed to us at the stipulated addresses in the website and the receipt of same must be confirmed..	<input type="checkbox"/>	<input type="checkbox"/>
19. The design & logic of the Dynamic Modules and the soft code used therein would remain as a proprietary property of Admen Multi-Studios.	<input type="checkbox"/>	<input type="checkbox"/>
20. Under this package, data will be hosted as it is supplied. Any digital editing or formatting shall be charged separately.	<input type="checkbox"/>	<input type="checkbox"/>
21. Any further specific requirements / amendments to the basic structure of allotment of space or contents shall be payable separately as the case may be.	<input type="checkbox"/>	<input type="checkbox"/>
22. Third party litigation pertaining to the site, if any, shall be the responsibility of the client.	<input type="checkbox"/>	<input type="checkbox"/>
