

## Quick, Flexible & Formated Question Papers with Description

Question Paper Generator is unique software developed by Admen Multi-Studios to overcome problem faced by the institution in conducting daily, weekly and monthly test. Making question papers is a repetitive and time consuming process which involves both teacher and the computer operator. Using this software the same process can be accomplished in minutes even in absence of any operator.

The teacher who uses Question Paper Generator only has to verbally specify the structure of his testpaper, and gets results within 5 minutes in form of a properly numbered ready to print testpaper in the desired format along with an answer & description sheet.

### QUESTION BANK

The software very easily stores and creates question papers containing question having simple text or diagrams or images or even graphs and charts. The software also handles questions in multiple languages and is capable of producing bilingual testpapers.

There is no need to retype the questions into any specific Software bank formation panel. Questions alongwith their 4/5 options and answer/description are stored and picked from MS Word/Pagemaker files. First the questions are feeded in the MS Word/ pagemaker file in a numbered sequence. Later they are indexed and tagged in the software according to Subject/ Unit/ Chapter/ Topic/ Category/ Difficulty Level/ Type etc.

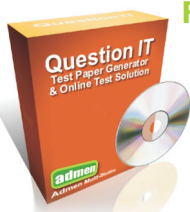

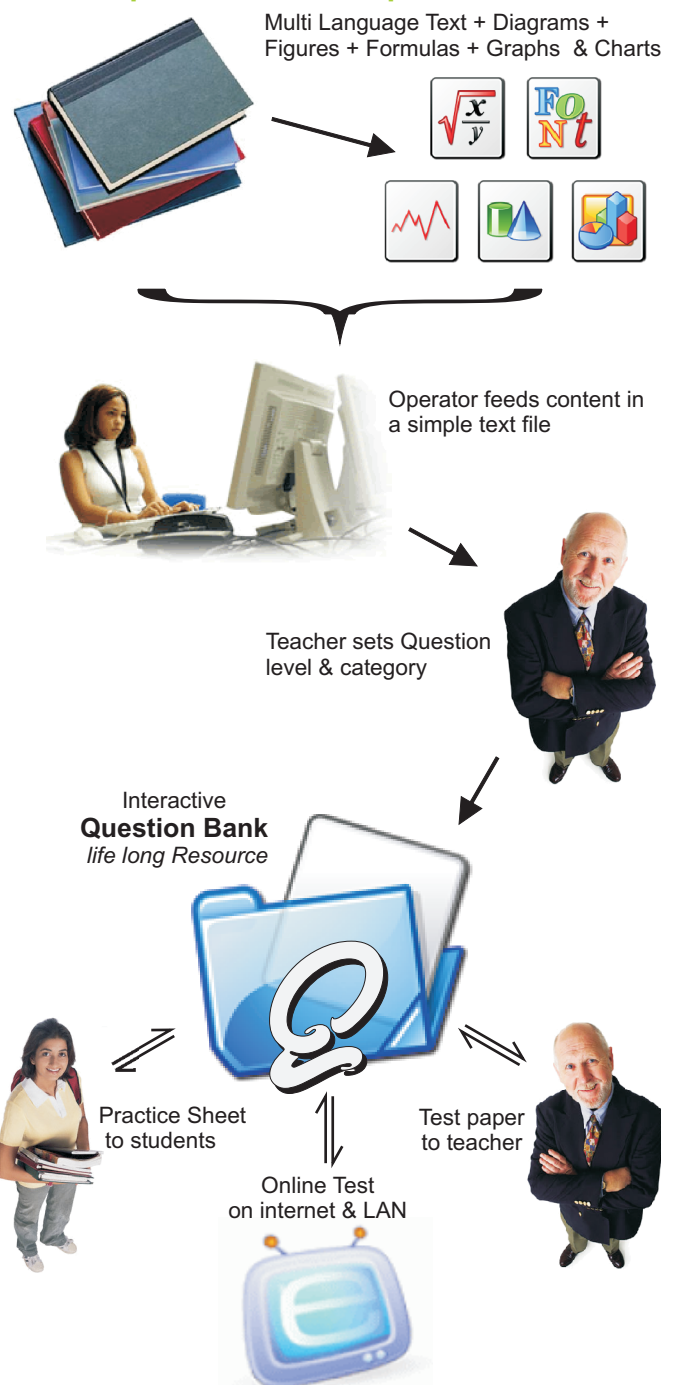

Thus the question bank resource can be prepared and used in absence of this Question Paper Generator software by simply cut & paste of questions from existing testpapers. You can edit/delete question any time. There is no limit to the number of questions that can be stored in the Question Bank.

### QUESTION SELECTION

All you need to do is just specify how many question of a desired category/type/difficulty level, you want from which subject, unit and chapter. Depending upon the requirement specified by you the testpaper is generated by the software. Besides question papers you can also create subject wise, unit wise and chapter wise assignment sheets. Question Paper could be from one or more than one subject/unit/chapter/topic.

### QUESTION REPETITIONS

The best part of the software is that it takes intelligent decision to eliminate repeated questions and checks even for the options. This makes it extremely convenient as the headache of manually avoiding repetition at the time of feeding is totally eliminated.
